SUMMARY

Software Engineering undergraduate and Trainee Software Engineer with hands on experience designing and developing full-stack web and mobile applications. Currently contributing to digital transformation initiatives at the Southern Province Planning Secretariat, working across frontend, backend, APIs, databases, authentication, and deployment.

Experienced in building production oriented systems using React, Next.js, Node.js, Express.js, TypeScript, Flutter, MongoDB, and MySQL. Developed government digital platforms, data management systems, healthcare applications, and gamified learning products, with a strong focus on clean architecture, responsive interfaces, secure authentication, and practical problem solving.

PROFESSIONAL EXPERIENCE

Intern Software Engineer

04/2026 – Present | on Site

Southern Province Planning Secretariat

- Develop and maintain **full-stack web applications** supporting the Secretariat's digital transformation and process automation initiatives.
- Design and implement **reusable frontend** components and **responsive interfaces**, improving consistency and reducing duplicated development effort across applications.
- Develop **RESTful APIs**, **authentication**, **database integrations**, and **business logic** across frontend, backend, and data layers.
- Contribute to the development of government digital platforms for information management, data collection, and administrative workflows.

EDUCATION

BSc (Hons) Software Engineering

01/2025 – Present

University of Westminster (UK) Affiliated with the Informatics Institute of Technology (IIT)

Comprehensive Master in Java Development – CMJD

01/2024 – 08/2025

Institute of Software Engineering (IISE)

Foundation Certificate in Higher Education

01/2024 – 12/2024

Informatics Institute of Technology (IIT)

School Education

2012 – 2023

St. Aloysius' College, Galle

SKILLS

Programming Languages

Java · JavaScript · TypeScript · Dart · Python · SQL

Backend Development

Node.js · Express.js · REST API Development · JWT Authentication · API Integration

Database

PostgreSQL, MongoDB, MySQL, Redis, Firebase

CS Fundamentals

Data Structures, Algorithms, OOP, Design Patterns, MVC Architecture

Frontend Development

React.js · Next.js · HTML5 · CSS3 · Tailwind CSS · Bootstrap · Responsive Design

Mobile Development

Flutter · Android Development

Tools & Methods

Git, GitHub, Jira, Agile/Scrum, Code Review, Unit Testing (Jest), Figma, Linux/CLI

PROJECTS

Sampath Pathikada - Divisional Data & Review Platform

06/2026 – 09/2026

Full-Stack Developer | Next.js, TypeScript, Prisma, MySQL, Tailwind CSS

- Developed a data collection and review platform for divisional-secretariat census and socioeconomic information.
- Implemented a two stage review workflow, role-based access control, user management, and official division profile publishing.
- Applied secure authentication, validation, CSRF protection, rate limiting, automated testing, and production deployment practices.

Southern Province Planning Secretariat - Official Web Site

04/2026 – 06/2026

Full-Stack Developer | React, Vite, Node.js, Express.js, JWT, REST API

- Developed a multilingual government web platform integrating a Public Portal, Content Management System (CMS), and Store Management Portal (SMP).
- Built REST APIs, authentication, inventory management, reporting, contact management, and role based access control.
- Implemented responsive interfaces, animations, SEO features, and production deployment architecture for a government digital platform.

Lakwedha - Ayurvedic Healthcare Platform

09/2025 – 03/2026

Project Leader & Full-Stack Developer | React, Next.js, Node.js, Express, MongoDB, Flutter

- Led the technical architecture and full stack development of an end to end Ayurvedic healthcare platform connecting patients, practitioners, pharmacies, and wellness services.
- Developed and integrated a Flutter patient application, React doctor portal, Next.js administration panel, and shared REST API.
- Implemented practitioner verification, online consultations, authentic product management, medicine delivery, digital health records, and emergency-service features.

Mathify - Gamified Mathematics Learning Platform

02/2026 – 07/2026

Full-Stack Developer | Flutter, Dart, Node.js, Express, MongoDB, REST API

- Developed a cross platform gamified learning application focused on improving multiplication skills for children aged 7+.
- Implemented authentication, adaptive lessons, practice and challenge modes, daily streaks, achievements, avatars, XP-based ranking, and leaderboards.
- Designed a feature first Flutter architecture with REST API integration, secure local storage, Google Sign In, OTP verification, and responsive UI.

Personal Portfolio Website

01/2026 – 02/2026

Designer & Developer | HTML5, CSS3, JavaScript, Bootstrap, GitHub Pages

- Designed and developed a responsive personal portfolio showcasing projects, technical skills, education, and professional experience.
- Implemented interactive project filtering, project detail views, animations, dark/light themes, blog content, SEO, and responsive layouts.
- Deployed the website using a custom domain with structured content for improved search engine and AI/LLM discoverability.

CERTIFICATES

- Certificate in Web Development
- Python Data Analysis (2020)
